Opening remarks by Christos welcoming everyone to eighth session of the Ethics group

The meeting started with a reflection on the previous meeting.

Discussion on Ensuring Data Protection in Drones/UAVs Operation presented by Victorien Hanche from ICRC

Please find the presentation slide [here](#) and follow the recording for more details (from minute 1:40 – 1:29:00) with the following topics covered:

- Definition of data protection, personal data, and data controller.
- The importance of talking about data protection
- Different use cases of drones
- The risk and challenges from using drones/UAS to provide assistance:
  - o Issues of transparency
  - o Exposure to sensitive information
  - o Crowdsourcing to process and analyze large data (sharing information with a large number of people).
  - o The legitimate processing and exercise of rights.
- Current ICRC use of drones/UAVs
- Data Protection principles
  - o Lawfulness and Fairness
  - o Data security
  - o Purpose limitation
  - o Data quality
  - o Data retention
  - o Data minimization
- Rights of the affected populations

\*\* for Q&A session please follow the recording from minute 52:20 – 1:25:00.
